ADVENTURE IS CALLING

Our kayaks and SUP's have changed the way people think about inflatables. By combining thoughtful, purpose-built designs with exciting new technologies, Aquaglide® has created a new breed of water craft never before possible; performance inflatables. These innovative boats and boards are designed to fit perfectly with your lifestyle and inspire the confidence to pursue your next adventure, wherever that may lead.

For 2016 the Aquaglide kayak range has been carefully refined and improved. Several small points have been changed to enhance your experience. One thing that hasn't changed is the way we do business. We maintain our ongoing commitment to listen to feedback from our partners and customers and to sell only through the finest retailers.

We've created not only fun, exciting products, but also a community of people around the world who are inspired by their time on the water and anxious to share their experiences.

Interested? Read through this brochure. Find out more information at AquaglidePaddle.com. We hope you'll be inspired to join us on the water!

AG Aquaglide

CHOOSING YOUR KAYAK

Why limit yourself with roof racks and cumbersome storage when you can have all the performance benefits of a top quality kayak stored in a backpack that travels with you? But with so many types of boats, choosing the right kayak to fit your lifestyle can be a daunting task.

Aquaglide Kayaks are lightweight, durable, portable, and most importantly, performance-oriented. These attributes make them ideally suited for recreational paddling, touring and adventure travel.

STEP 1: CHOOSE FUNCTION(S)

The first step in choosing a boat is to determine what type of paddling you'd like to do. Most boats easily cover different types of paddling, but envisioning how you will use the boat can help narrow the choices. Try picking your top 1-3 Functional performance categories from the list below. Compare these to the Functional charts for each series to help find a good match.

PERFORMANCE CATEGORIES

Each boat has its own unique blend of attributes which enable it to perform well in specific circumstances. This is the overview about what type of use each boat excels at.

Recreational

Aquaglide Kayaks are all about fun on the water. To be fun in a wide range of conditions, these boats offer a well-balanced selection of attributes.

Touring

Expand your adventures! Touring is all about going places. To accomplish that goal, these boats favor attributes like speed, tracking and comfort needed for longer outings.

Expedition

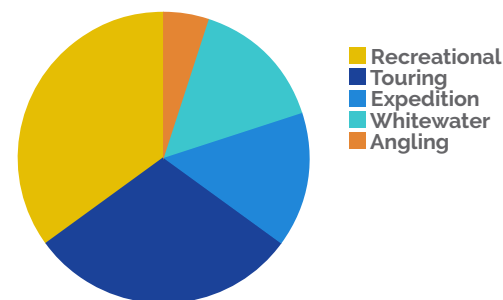

Aquaglide kayaks are ideally suited for adventure travel. Expedition boats favor a balanced blend of speed, tracking & comfort, plus stability, durability & storage capacity.

Whitewater

What greater rush than finding the right line down a surging river? Whitewater boats require a blend of stability, quick maneuverability and excellent drainage.

Angling

Nearly all Aquaglide kayaks are fishing-friendly! Boats best-suited for angling offer excellent stability, comfort, durability, drainage and room for gear.

STEP 2: CHOOSE SIZE

The next step is to choose a size. Sizing is a very personal choice, again determined by how you intend to use the boat. Do you need room for two or even three people? Are you a solo paddler? Choosing the right boat means considering how much space you want for paddlers and for gear. A tall solo paddler may choose a two-person model for better leg-room. A solo touring paddler may prefer a tandem size for increased gear capacity and space for the occasional guest. Stepping up in size increases your options because Aquaglide seating can be easily re-configured to suit different needs.

👤 One-Person

Capacity for 1. Ideally suited for recreational paddling with limited gear.

👤👤 Two-Person

Small tandem. Capacity for 1-2. Better suited for distance, two recreational paddlers, or one with gear capacity.

👤👤👤 Tandem XL

True tandem. Capacity for 1-3. Best suited for distance, up to three people or up to two paddlers with maximum gear capacity.

STEP 3: CONSIDER ATTRIBUTES (OPTIONAL)

If your choice is already made, comparing attributes may be an unnecessary detail. However, going a step beyond the general functionality and sizing of a boat to compare the specific attributes described on the next page can help cinch the decision between two similar boats. Each boat features an attributes chart to help convey its strengths.

ATTRIBUTES

These are the details that help to tell the story about each boat.

Speed

How fast the boat moves through the water.

Tracking

How straight the boat travels.

Stability

How stable the boat is from side to side.

Maneuverability

How responsive the boat is to turning input.

Comfort

Softer materials and padding for long outings.

Durability

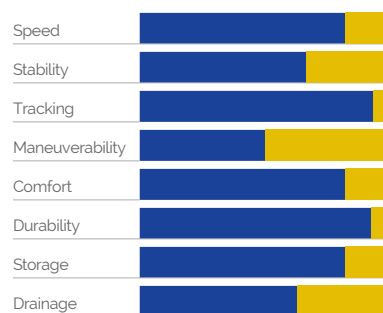

Tougher materials which wear better, but may reduce comfort.

Storage

How much space is available for gear.

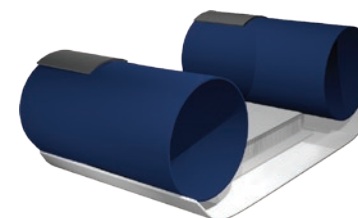

Drainage

How well suited is the boat for whitewater-type drainage.

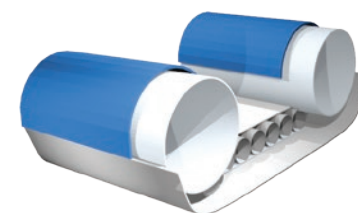

STEP 4: CHOOSE CONSTRUCTION

Aquaglide Kayaks are built using innovative technologies to provide the best combination of attributes for a given purpose. In many cases, your previous choices will have already determined the right construction to meet your needs. If not, the final step in choosing a boat may be to choose the type of construction best suited to your needs.

Duratex™ HB™ Construction

Expedition-grade Duratex™ material provides unmatched durability and performance. High-pressure HB floor creates a solid Hard-Bottom™ platform that is incredibly stiff and responsive. HB floor supports up to 12 psi (0.83 bar) air pressure for a hull that is as stiff as fiberglass and stable enough to stand up in. Best suited for performance paddling, expedition use, outfitters or anyone who demands the very best in quality and performance. Found on Chelan™ HB, Blackfoot™ HB and Klickitat™ HB Series.

Polyester XP™ Construction

Rugged 600d polyester cover provides comfort, performance and excellent UV protection for 24 gauge internal PVC bladders. Duratex bottom material offers strength and durability below the waterline. Aquaglide's proprietary XP floor™ uses X-beam Technology to produce a stiff, durable PVC beam floor for excellent performance and value. Best suited for recreational paddling, occasional travel, touring or those most interested in a balance of comfort, performance and value. Found on Columbia™ XP, Chinook™ XP, Panther™ XP and Rogue™ XP Series.

CHELAN™ HB

Performance Touring/ Expedition

Chelan HB is designed for touring, adventure and all-around use.

The Chelan HB Series is one of the best selling touring designs on the market. With a long waterline, flat rocker and fine, piercing bow this kayak will provide you with great tracking ability and outstanding glide to cover long distances on your adventures with ease.

Chelan HB boats combine our tough Duratex™ tube construction with the supremely rigid Hard-Bottom™ floor for an expedition-grade boat that will last for many years. This combination of materials in the Chelan's construction creates a stiff and responsive inflatable that performs just as well as a traditional hard shell kayak. The innovative Splash-Guards™ positioned fore and aft of the cockpit help keep paddlers dry and the ample accessory straps grace the bow and stern providing easy stowage for dry bags or other gear. Sturdy molded handles are positioned around the boat for convenient boarding and transport. For added comfort the PRO-formance™ seats provide an array of thoughtful features including adjustable air cushion, high backrest, plentiful mesh storage pockets, integrated fishing-rod holders, fore and aft seat straps so that you can enjoy your time on the water to its fullest. The high-performance fin system includes a stiff, foiled fin with unique quick-release for easy setup and comes a convenient backpack travel bag. To unleash the Chelan's full potential we suggest using one of our High Pressure Pumps with HB boats. Pump sold separately, see Accessories page for pump options. Optional Touring Deck Covers available for Chelan Series.

Construction

1. HB™ Floor-Reinforced 8cm Dropstitch
2. Tubes 1000 denier, 850GSM Duratex Reinforced PVC
3. Hull - 500 denier, 600G Duratex Reinforced PVC

BLACKFOOT™ ANGLER HB

Technical Angling/ All-Purpose

If casting big dryflies for hungry cutthroat is your passion, then the BlackfootAngler HB is designed for you.

While named after the legendary Blackfoot River in Montana, our rugged kayak will effortlessly glide you into your favorite honey hole on the river of your choice. With plentiful Scotty® mounts within arms-reach, the Blackfoot can be completely customized to tackle the wildest angling missions of your dreams.

Industry leading stiffness, which is crucial for efficient paddling and casting, is forged through the use of premium grade drop-stitch combined with our proprietary Powerstrip™. The commercial-grade Duratex™ hull construction provides long-lasting performance while the forward Splash-Guard™ helps keep you dry while you paddle to your secret fishing spot. With sturdy molded handles positioned around the boat you will be able to board the boat easily and quickly. As a final touch, we provide you with a mounted Rugged Core™ seat on a removable, raised platform for a higher seating position. Equipped with a high backrest, mesh storage pocket, integrated fishing-rod holders, fore and aft support straps and an infinite adjustment system not only will you be able to paddle efficiently but you'll be able to do so in absolute comfort. The Blackfoot Angler comes with a high-performance fin system includes a stiff, durable, foiled fin with unique quick-release for easy setup. Convenient backpack travel bag included. To unleash the full potential we suggest using one of our High Pressure Pumps with HB boats. Pump sold separately, see Accessories page for pump options.

KLICKITAT™ HB

Whitewater / All-Purpose

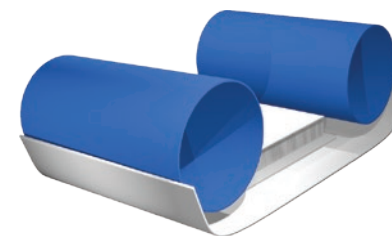

The Klickitat is the ultimate thrill seeker's inflatable kayak.

Created with a traditional river running outline this kayak series has exceptional stability with ample rocker for maneuverability and control in rough water.

These boats combine our tough Duratex™ tube construction and Hard-Bottom™ floor design for an expedition-grade boat that will let you tackle whitewater with confidence. The Klickitat's hull construction provides long-lasting performance for whatever comes your way and the high-pressure HB floor creates a solid Hard-Bottom platform that feels every bit as stiff and responsive as a hard shell kayak.

The plentiful cockpit drains give you the freedom to configure the boat for self-draining (white water), or dry use, as conditions dictate. There are also ample cockpit tie-downs so that you can pack all the gear you need and then some. Combine these features with the Rugged Core™ seats that include a high backrest, mesh storage pocket, integrated fishing-rod holders, fore and aft support straps and an infinite adjustment system and you'll be more than ready to explore new and exciting rivers and rapids. High-performance fin system includes stiff, durable, foiled fin with unique quick-release for easy setup. Convenient backpack travel bag included.

To unleash the full potential we suggest using one of our High Pressure Pumps with HB boats. Pump sold separately, see Accessories page for pump options.

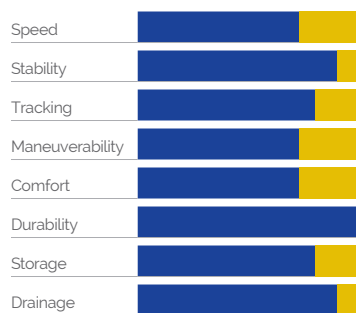

Construction

1. HB™ Floor-Reinforced 8cm Dropstitch
2. Tubes 1000 denier, 850GSM Duratex Reinforced PVC
3. Hull - 500 denier, 600G Duratex Reinforced PVC

KLICKITAT™ HB TWO

A versatile all-purpose boat that comfortably fits two adults with room to spare. Excellent for recreational paddling, commercial or whitewater use.

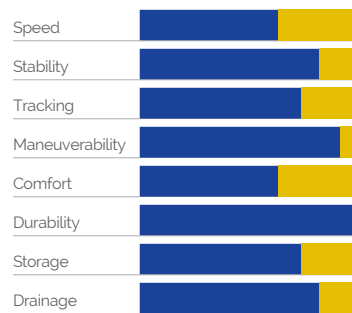

Specifications	12'6" L x 36" W (381 cm L x 91 cm W)
Weight	36.1 lbs (16.4 kg)
Capacity	600 lbs (272 kg)
	1-2 PERSON

KLICKITAT™ HB ONE

A stiff, responsive boat providing versatile all-purpose performance for one paddler. Excellent for recreational paddling, commercial or whitewater use.

Specifications	10'0" L x 36" W (305 cm L x 91 cm W)
Weight	25 lbs (11.3 kg)
Capacity	300 lbs (136 kg)
	1 PERSON

Includes kayak bag

COLUMBIA™ XP

Recreational Touring

The Columbia Series is designed for recreational touring and all-around use for paddlers.

Loaded with convenient features, Columbia XP are among the most popular boats. The long waterline, flat rocker and fine, piercing bow provide outstanding tracking ability and great glide to cover long distances with ease, so you can get on the water faster.

The XP floor™ construction uses an inflatable chamber with Aquaglide proprietary X-beam Technology that mimics that of a sturdy hard shell kayak. Our custom made Duratex™ hull material is blended with rugged 600d polyester for long-life and UV protection so that you can enjoy your kayak for years of adventures to come. The integrated Splash-Guards™ positioned fore and aft help keep paddlers dry while ample accessory straps grace the bow and stern for easy stowage of all your gear essentials. The sturdy molded handles are positioned around the boat for easy boarding and transport. We also made sure that our Durable Core™ seats will provide you with the utmost comfort with high backrests, plentiful mesh storage pockets, integrated fishing-rod holders, fore and aft seat straps and an infinite adjustment system. Fin system includes stiff, foiled performance fin with unique quick-release for easy setup. Convenient travel backpack included. Pump sold separately, see Accessories page for pump options.

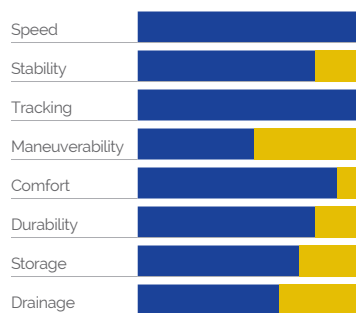

Construction

1. Floor - Polyester covered PVC X-Beam
2. Cover - 600 denier PU2-Coated Polyester
3. Bladder - 24 gauge K80 PVC
4. Hull - 500 denier, 600G Duratex Reinforced PVC
5. Gunwale Pad-Neoprene

COLUMBIA™ XP TANDEM XL

A true tandem with capacity for 3 users, but intended for two adults plus a child, pet, extra gear or luxurious leg room.

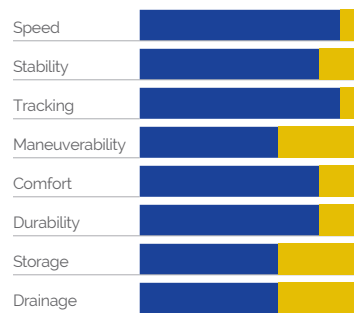

Specifications	15'0" L x 36" W (457 cm L x 91 cm W)
Weight	431 lbs (19.5 kg)
Capacity	600 lbs (272 kg)
	1-3 PERSON

COLUMBIA™ XP TWO

Fits two paddlers comfortably, or provides a solo paddler with plenty of performance and gear capacity for longer range use.

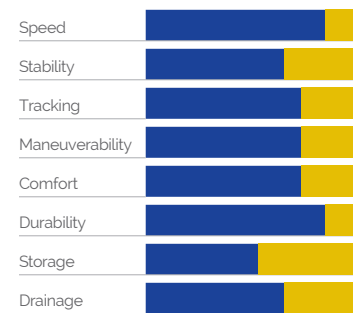

Specifications	13'5" L x 36" W (409 cm L x 91 cm W)
Weight	40 lbs (18.1 kg)
Capacity	400 lbs (181 kg)
	1-2 PERSON

COLUMBIA™ XP ONE

A one-person boat for recreational touring and all-around use.

Specifications	11'4" L x 36" W (345 cm L x 91 cm W)
Weight	32 lbs (14.5 kg)
Capacity	300 lbs (136 kg)
	1 PERSON

Includes kayak bag

TOURING COVERS

Aquaglide Touring Deck Covers will let you paddle ALL year round. If you are a kayaker who prefers a traditional closed-deck kayak then these deck covers are exactly what you need.

Designed to fit both the Chelan HB and Columbia XP Series, our Touring Deck Covers are made from rugged 600 denier polyester and supported with rigid fiberglass battens for a nicely domed shape that repels water easily. The Deck Covers can be left in place permanently, or installed/removed in a matter of minutes and they also include many features to help make your paddling experience even more enjoyable. The vinyl map pocket and inflatable cockpit coamings help to keep water out and with easy installation it is no wonder why you would want this kayaking accessory. Touring Deck Covers include everything necessary for quick installation and can be used with a kayak skirt if needed. Skirt not included.

TOURING TWO - DOUBLE COVER

Fits 2-person versions of Columbia™ Expedition HB, Columbia™ XP and previous Columbia™ models

TOURING TANDEM - DOUBLE COVER

Fits Tandem versions of Columbia™ Expedition HB, Columbia™ XP and previous Columbia™ models

TOURING ONE - SINGLE COVER

Fits 1-person versions of Chelan™ HB, Columbia™ XP and previous Columbia™ models

TOURING TWO - SINGLE COVER

Fits 2-person versions of Columbia™ Expedition HB, Columbia™ XP and previous Columbia™ models

TOURING TANDEM - SINGLE COVER

Fits Tandem versions of Columbia™ Expedition HB, Columbia™ XP and previous Columbia™ models

CHINOOK™ XP

Recreational

The Chinook Series is designed for all-purpose recreational use and exceptional value for the adventure seeker in you.

A stable, efficient hull form, the Chinook Series offers plenty of cockpit space and our proprietary XP floor™ Technology for outstanding value and excellent paddling performance. Eminently versatile by design and loaded with convenient features, this kayak series is an especially popular choice for recreational paddlers like you looking to enjoy great time on the water on all of their awesome adventures.

The Chinooks XP floor construction uses an inflatable chamber with Aquaglide proprietary X-beam Technology to produce a stiff, durable PVC beam floor while the Duratex™ hull material is blended with rugged 600d polyester for long-life and UV protection. The multiple accessory straps let you haul all the gear you want for easy stowage while sturdy molded handles around the entire kayak let you board comfortably and easily so you can get on your way quickly. The finishing touch includes our Comfortable Core™ seats that include a high backrest, mesh storage pocket, integrated fishing-rod holders, forward-only seat straps and an infinite adjustment system for convenience. The fin system includes stiff, durable, foiled fin with unique quick-release for easy setup and the convenient storage bag lets you pack out with ease so you can head on home after having the most epic day. Pump sold separately, see Accessories page for pump options.

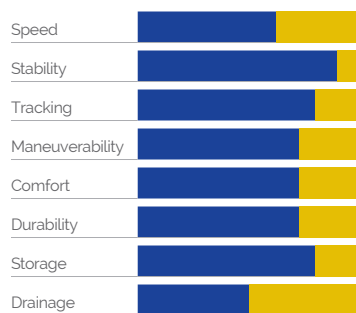

Construction

1. Floor - Polyester covered PVC X-Beam
2. Cover - 600 denier PU2-Coated Polyester
3. Bladder - 24 gauge K80 PVC
4. Hull - 500 denier, 600G Duratex Reinforced PVC

CHINOOK™ XP TANDEM XL

Ideal for family use, with plenty of room for two adults plus a child, pet or gear with room to spare.

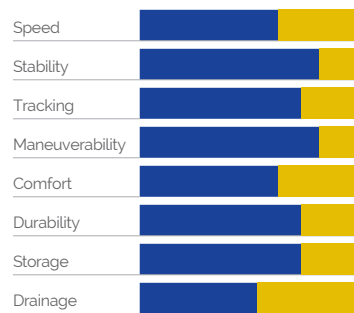

Specifications	12'10" L x 36" W (391 cm L x 91.54 cm W)
Weight	38.1 lbs (17.3 kg)
Capacity	550 lbs (250 kg)
	1-3 PERSON

CHINOOK™ XP TWO

Extremely versatile, fitting two paddlers comfortably, or one paddler with plenty room to stretch out.

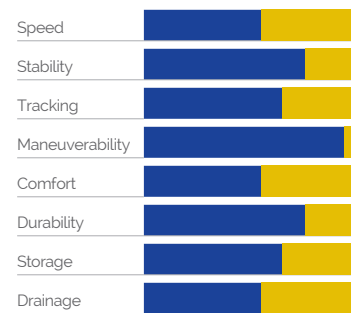

Specifications	10'6" L x 36" W (320 cm L x 91.5 cm W)
Weight	29 lbs (13.1 kg)
Capacity	400 lbs (181 kg)
	1-2 PERSON

CHINOOK™ XP ONE

Comfortably fits a paddler with space left over for fishing gear and a nice lunch.

Specifications	8'10" L x 36" W (269 cm L x 91.5 cm W)
Weight	28 lbs (12.7 kg)
Capacity	250 lbs (113 kg)
	1 PERSON

Includes kayak bag

PANTHER™ XP

Compact Recreational

Designed for all-purpose recreational use and scaled to meet the needs of paddlers under 5'4" / 120 lbs (1.65m / 55kg) the Panther is a rugged little kayak to suit your adventuring needs.

Everything, including the seat, has been scaled to provide maximum comfort and control for a woman, child, or any paddler with a compact frame.

Outfitted with a range of features, the Panther features our proprietary XP floor™ Technology for outstanding value and excellent paddling performance so you can have the best adventures on the water. Our Duratex™ hull material is blended with rugged 600d polyester for long-life and UV protection and the multiple accessory straps located at the bow and stern lets you stow all of your gear essentials. A compact version of the Core™ seat offers thoughtful features including supportive backrest, mesh storage pocket, integrated fishing-rod holders, fore and aft seat straps and an infinite adjustment system for convenience. Fin system includes stiff, durable, foiled fin with unique quick-release for easy setup. Convenient travel backpack included. Pump sold separately, see Accessories page for pump options.

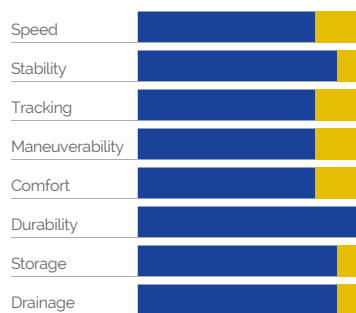

Construction

1. Floor - Polyester covered PVC X-Beam
2. Cover - 600 denier PU2-Coated Polyester
3. Bladder - 24 gauge K80 PVC
4. Hull - 500 denier, 600G Duratex Reinforced PVC

PANTHER™ XP

Comfortably fits one compact size paddler with space left over for gear.

Specifications	91" L x 32" W (295 cm L x 81 cm W)
Weight	24 lbs (10.9 kg)
Capacity	170 lbs (77 kg)
	1 PERSON

Includes kayak bag

ROGUE™ XP

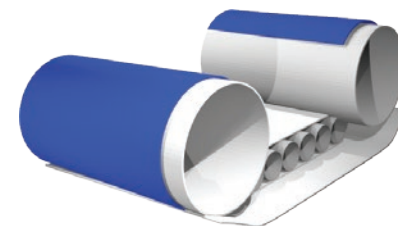

Top-mounted Utility

Ideal for fishing, diving or just playing, the Rogue Series offers functional sit-on-top utility.

The wide, stable outline and open stern lets you easily re-board from the water while an open cockpit provides effortless drainage.

Featuring our proprietary XP floor™ Technology, and 600d polyester deck cover, the Rogue Series represents an outstanding value for any recreational paddler considering a sit-on-top kayak. The Rogue's XP floor uses an inflatable chamber with Aquaglide proprietary X-beam Technology to produce a stiff, durable PVC beam floor. The Duratex™ hull material is blended with rugged 600d polyester for long-life and excellent UV protection. With the combination of these materials the Rogue is built to take any adventure that comes with way. To finish it off, The Rogue's rear accessory straps provide good stowage for toys or gear while strong padded handles are found all around the boat for convenient boarding and transport while the supportive Core™ seats offer many thoughtful features including high backrest, mesh storage pocket, integrated fishing-rod holders. Fin system includes stiff, durable, foiled fin with unique quick-release for easy setup. Storage bag and pump sold separately, see Accessories page for options.

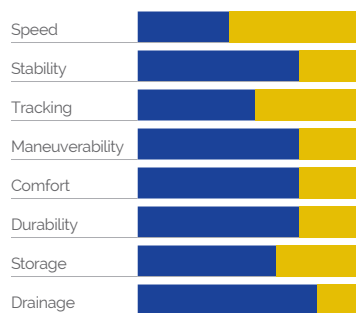

Construction

1. Floor - Polyester covered PVC X-Beam

PADDLES

Aquaglide paddles are designed to fit your lifestyle. We're proud to present this innovative collection of paddles ideally suited for recreational paddling, touring or adventure travel.

VARIO™ SERIES

Aquaglide VARIO Series presents an entirely new concept in recreational paddles! The totally unique VARIO design allows these lightweight, all-purpose paddles to easily adjust between 210cm and 240cm lengths to meet the needs of various conditions or of different paddlers.

VARIO™ SUPERLIGHT™ 210CM - 240CM

The VARIO Superlight takes a whole new concept to a whole new level by integrating a light, stiff carbon composite shaft with glass-filled nylon blades. Responsive carbon fiber shaft provides superior performance while durable injection-molded blades deliver smooth, efficient power and durability. Includes MicroGrip™ handgrips and drip guards. Adjusts between 210cm and 240cm.

Specifications:
90.5"L x 6.7"W
(240cm L x 17cm W)

Weight: 2 lbs 3.5 oz
(1,10kg)

VARIO™ REFLEX™ 210CM - 240CM

VARIO Reflex offers the innovative VARIO concept in a strong epoxy composite shaft with glass-filled nylon blades for improved performance, durability and value. Includes MicroGrip handgrips and drip guards. Adjusts between 210cm and 240cm.

Specifications:
90.5"L x 6.7"W
(240cm L x 17cm W)

Weight: 2 lbs 5.5 oz
(1,16kg)

VARIO™ CROSSOVER™ 210CM - 240CM

With a 6061 T6 Aluminum shaft and durable glass-filled nylon blades, the VARIO Crossover delivers smooth, efficient power and excellent value. Includes MicroGrip handgrips and drip guards. Adjusts between 210cm and 240cm.

Specifications:
90.5"L x 6.7"W
(240cm L x 17cm W)

Weight: 2 lbs 13 oz
(1,23kg)

CRUISE™ SERIES

Aquaglide CRUISE Series offers an efficient, all-purpose recreational paddle designed for value and performance. Powder-coated aluminum shaft and durable injection-molded blades deliver the power you need at a price you'll love. Includes handgrips and drip guards.

CRUISE™ 240CM, 2PC

Specifications:
94.5"L x 6.7"W
(240cm L x 17cm W)

Weight: 2 lb 10oz (1.19kg)

CRUISE™ 240CM, 4PC

Specifications:
94.5"L x 6.7"W
(230cm L x 17cm W)

Weight: 2 lb 14oz (1.30kg)

CRUISE™ 230CM, 2PC

Specifications:
90.5"L x 6.7"W
(230cm L x 17cm W)

Weight: 2 lb 8oz (1.13kg)

CASCADE™

Inflatable SUP

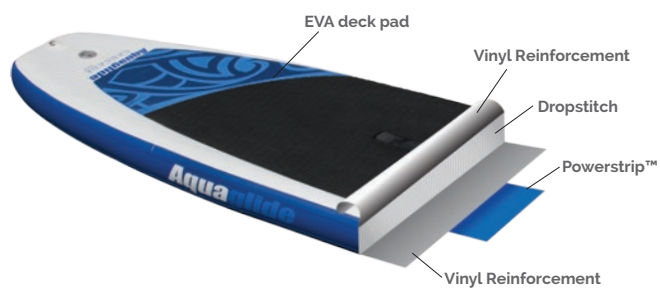

The Cascade Series inflatable SUP boards are the ideal SUP for the apartment dweller or someone who is limited on space.

Ideally suited for travel, or tight storage requirements, these boards are durable enough for you to take on a whitewater adventure, and compact enough to roll up and fit in small spaces. The Cascade is ideal for boaters and families! Made from the best quality drop-stitch material with extra Powerstrip™ reinforcements, this inflatable SUP inflates to 14 - 18 psi, making them incredibly stiff for the most efficient paddling experience. The fin system has been updated with the stiffest interface on the market, with quick and easy tool-free mounting for your easy use.

Cascade™ Technology

The inflatable technology used in our Cascade series starts with high quality, high density drop stitch material that is rated for pressures up to 18 psi. High pressure is key to making these boards perform as close as possible to hard-shell boards. It is then reinforced with layers of PVC for extra stiffness and durability, and fitted with a diamond groove EVA deckpad. The Cascade series also features a US fin box, which improves stiffness and interchangeability, allowing it to accept the most popular replacement fins on the market.

Each Cascade SUP Includes Crossroads DLX Backpack and Red Double Action Pump

CASCADE™ 10'0"

Great for kids and light to medium weight paddlers, this board uses 4 thick drop-stitch material to save weight and cost.

Specifications:

10'0" x 32" x 6"
(305cm x 81cm x 5cm)
6" (15cm) drop stitch
26 lbs (11.8 kg)
170 L, Riders <180 lbs (82 kg)

Includes padded backpack bag (pg. 32)

CASCADE™ 11'0"

With enough volume to float anyone up to 230 pounds, the Cascade 11'0" also provides added stiffness thanks to 6 drop-stitch material and extra Powerstrip reinforcements.

Specifications:

11'0" x 32" x 6"
(335 cm x 81 cm x 5 cm)
6" (15cm) drop stitch
32 lbs (14.5 kg)
210 L, Riders <230 lbs (105 kg)

Includes padded backpack bag (pg. 32)

CASCADE™ 12'0"

Extra length and the narrow touring nose offer excellent tracking, speed, and stability for riders of all sizes. 6 drop-stitch material and extra Powerstrip reinforcements add significant stiffness for better performance.

Specifications:

12'0" x 32" x 6"
(366cm x 81cm x 15cm)
6" (15cm) drop stitch
34 lbs (15.4 kg)
250 L, Riders <230 lbs (105 kg)

Includes padded backpack bag (pg. 32)

IMPULSE™ SUP

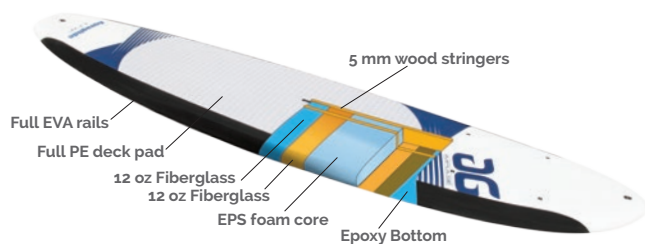

Aquaglide Impulse Series SUP boards offer you an economical way to get started in the world of SUP.

Perfect for learning or sharing with family and friends, the Impulse board is built with a lightweight hand-shaped EPS core reinforced with wood stringers. By doing so, this SUP series can handle almost any paddle session that comes its way. Each board is hand-laminated with fiberglass and epoxy resin so that you can have a board that looks awesome, performs well, and lets you have the best paddling adventures out on the water. The deck is finished with diamond cut PE foam and integrated EVA nose tail & rail bumpers for extra protection that help with stability and paddling. The bottom is a durable epoxy/fiberglass skin that makes this board a great choice for anyone trying to learn. Includes accessory deck inserts, a molded carry handle and fin.

Impulse™ Technology

Impulse technology uses a lightweight EPS foam core, reinforced with wood stringers and hand laminated with fiberglass for stiffness and durability. The bottom is finished with a durable epoxy composite skin, while the whole deck is finished with diamond-cut PE foam deckpad, with durable EVA foam rails. EVA foam bumpers are integrated into the nose and tail. The Pilot board uses this same process, except the bottom skin is a sheet of IXPE slick skin.

IMPULSE 9'6"

An incredibly fun board in a compact package. Offers a surprising amount of stability and flotation, but is still light and easy to handle on and off the car.

Specifications:

9'6" x 32" x 4.75"
(290cm x 81cm x 12cm)

30 lbs (13.6 kg) ~170 L
Riders <170 lb (77 kg)

IMPULSE 11'0"

Our most popular size, this board works extremely well for all but the very largest paddlers. Well-balanced stability, glide and tracking.

Specifications:

11'0" x 32" x 4.75"
(335cm x 81cm x 12cm)

32 lbs. (14.5 kg) ~210 L
Riders <230 lb (105 kg)

IMPULSE 12'0"

Our touring shape, this board incorporates a piercing displacement bow for a smoother ride in chop, and better tracking and speed. A great choice for paddlers aiming for longer sessions and greater distances.

Specifications:

12'0" x 32" x 5.5"
(366cm x 81cm x 14cm)

35 lbs. (15.9 kg) ~220 L
Riders <250 lb (113 kg)

WAIMEA™ 10' & 11' SUP

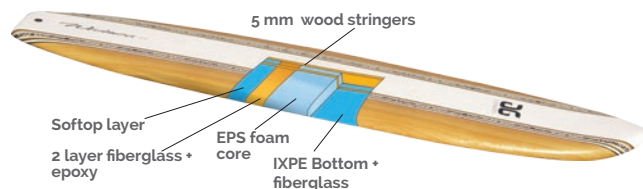

The Waimea stands out as the jack of all trades in the soft top SUP category.

Designed for beginner and intermediate paddlers of all sizes, the Waimea's stiffness is forged by wrapping tow wood stringers into a 100% waterproof thermos molded EPS foam core. Two thickset layers of fiberglass and epoxy seal the board tip to tail which is then wrapped with a durable soft top and IXPE (slick skin) bottom. Coupled with a width of 33 inches and a 5.25 thickness, stability and flotation come effortlessly to the Waimea. The customized shape yields superior glide and tracking making the Waimea the go-to board when enjoying time on the water with friends and family. The Waimea package includes: adjustable paddle, surf leash with ankle strap, and soft roof racks.

Waimea Technology

Uses a lightweight 100% waterproof thermo molded EPS foam core, reinforced with wood stringers and the two thickest layers of fiberglass and epoxy seal for stiffness and durability. The board is then wrapped with a durable soft top from tip to tail and the bottom skin is an IXPE slick skin bottom.

WAIMEA 10'

The Waimea 10 ft is perfect for paddlers who are learning to get into the sport. This board has a weight capacity of 300 lbs.

Specifications:

10'0" x 33" x 5.25"
(305cm x 84cm x 14cm)
300 lbs / 136 kg
25 lbs / 11.3 kg
Liters: 210 L

WAIMEA 11'

The Waimea 11ft is for the larger paddler with added stability and more volume. This SUP can hold up 400 lbs.

Specifications:

11'0" x 33" x 5.25"
(351cm x 84cm x 14cm)
400 lbs / 181 kg
27 lbs / 12.3 kg
Liters: 230 L

BLACKFOOT™ ANGLER ISUP

Technical Angling/ All-Purpose

If you're serious about stand up paddle angling then the Blackfoot Angler ISUP is built for you.

While named after the legendary Blackfoot River in Montana, our rugged inflatable SUP will effortlessly help you paddle to your secret fishing spot on your favorite river or that remote lake nestled in the woods.

With 6 Scotty® mounts within arms-reach, the Blackfoot can be outfitted to tackle any angling mission on your bucket list. D-rings in all the right places make strapping down a cooler or milk crate loaded with your tackle boxes a cinch and stability isn't a concern given its 36" width can handle loads of up to 450lbs with ease. Industry leading stiffness, which is crucial for efficient paddling and casting, is forged through the use of premium grade drop-stitch combined with our proprietary Powerstrip™ material. As an added bonus, the teak colored EVA top deck- it is designed with a special micro slitted texture to help with reduced slipping. The Blackfoot Angler ISUP board should be inflated to 14 - 18 psi for optimum performance. As a final touch, we used the US finbox system which allows you to change out or replace the fin by visiting the first paddle store you see. Once the day's catch is packed in the cooler for the ride home, simply deflate, roll up, slide it into its backpack and throw it in the backseat or trunk.

BLACKFOOT ISUP

Specifications:

Length: 132 in / 11 ft / 3.35 m

Width: 36 in. / 3 ft / 0.9 m

Weight: 34 lb / 15.42 kg

Capacity: 450 lbs / 204 kg

Volume: 60.8 Gallons / 230 L

PSI: 14-18 psi Material: Drop-stitch with extra Powerstrip reinforcements

Features: 6 mounting plates for Scotty accessories, front and back Bungee cords, 3 carry handles, front ruler for measuring

Includes Crossroads DLX Backpack and Red Double Action Pump

CROSSROADS DLX BAG

The Crossroads DLX Backpack, designed for active hiking to your favorite lake or easy transport on the next flight out.

Regardless of where you are going the Crossroads DLX, made of rugged Change to 600d Polyester/PVC laminate and heavy duty components, is built to last. It features fully padded construction with extra back pads for breathability. The fully padded shoulder straps are adjustable, with sternum straps on the chest, and waist belt support for even more comfort. The oversized design allows you to carry the board, pump, and most everything you need for a day on the water. The extra compression straps on both sides keep the load centered while the two mesh side pockets and adjustable bungee cords on the back let you store extra gear. As an added bonus the unique zipper pocket allows the straps to hide away when not in use.

Bungee straps for holding gear

Sternum straps

Waistbelt buckle/clip

Durable carry handle

Mesh pads

Side compression buckle clips

Two side mesh pockets

Zipper compartment for backpack straps

SUP PADDLES

Aquaglide has been a leader in SUP paddle technology for several years. The FOCUS™ adjustable aluminum paddle offers great durability and value. The new VECTOR™ adjustable offers amazing value and performance in a carbon shaft paddle. The extremely popular RHYTHM™ adjustable paddle provides outstanding performance and light weight that is surpassed only by the full carbon construction of the RHYTHM CARBON™ un-cut paddle.

FOCUS™ PADDLE

ACCESSORIES

FISHING COOLER

The Fishing Cooler is a must-have accessory for anyone spending extended time on the water! The main cooler compartment offers 9qts (8.5L) of lined, insulated storage space; the perfect fit for up to 24 chilled 12oz cans with ice or to keep your catch of the day on ice. The exterior is loaded with various features such as 4 extended rodholders, 2 side zipper pockets, a generous front pocket for lures and gear, plus a clear map/ license pocket built into the cooler's top. The velcro bottom connects to any AquaGlide® kayak with Infinite Adjust floors. Fishing or not, this cooler will be a favorite accessory for your AquaGlide® kayak.

*Fits all models with infinite Velcro floor system.

THIGH STRAPS

Fits all models except Yakima™, Rogue™ Series, Panther™ XP & Chinook™ XP One.

DRY BAG

Dry bag for dry storage of your items.

PUMPS

12V TURBO HP PUMP

Extremely powerful 12v electric pump designed for quick inflation of watersports inflatables where no wall outlet is available. Uses heavy duty cable and alligator clips to connect to boat or car battery. Includes deflate option, and Kink-proof hose with attached fittings for Stem, Boston, and Halkey-Roberts type fittings. Makes quick work of inflating Aquaglide kayaks. NOTE: Best for boats with XP floor or other low-pressure watersports equipment.

Specifications:

33A @ 12vDC, 2.8 psi max, ~ 35 cfm

BELLOWS PUMP

Well-suited to the needs of watersports enthusiasts, this durable, bellows-style foot pump makes quick work of pumping small and medium sized inflatables to moderate pressure (2.6 psi max). Includes attached fittings for Stem, Boston, and Halkey-Roberts type fittings. NOTE: A good option for boats with XP floor or other low-pressure watersports equipment.

Specifications:

14"L x 12"W x 12"H (36cm L x 31cm W x 31cm H)

Weight: 2 lb 9oz (1.20 kg)

12V TURBO PUMP

The powerful 12v Turbo HP Pump has quickly become the go-to for inflatable SUP or HB kayaks. A powerful two-stage motor provides both quick inflation and high pressure capability up to 20psi (1.4 bar). Connects to battery with heavy duty cable alligator clips and also includes optional cigarette lighter fitting. Inflate and deflate using kink-proof hose and attached fittings for Boston, and Halkey-Roberts type valves. Best for inflating Aquaglide HB kayaks or inflatable SUP's.

Specifications:

15A @ 12vDC, 20.0 psi (1.4bar) max, ~ 10 cfm

110V PUMP

Powerful 110v electric pump specifically designed for quick inflation of watersports inflatables. Convenient deflate option helps remove trapped air for tight storage. Includes Kink-proof hose with attached fittings for Stem, Boston, and Halkey-Roberts type fittings. An excellent resource for inflating Aquaglide kayaks where electric power is available. NOTE: Best for boats with XP floor or other low-pressure watersports equipment.

Specifications:

730W @ 120vAC, 60Hz, 2.6 psi max, ~ 40 cfm

HIGH-PRESSURE KAYAK PUMP

Our Dual Hose Inflation system is the ultimate solution to cutting down on set up time so that you can spend more time out on the water. The dual hose adapters allows you to inflate both bladders of your inflatable kayak at the same time. This extremely efficient high-pressure push pump with pressure gauge comes with assorted fittings and has a stiff, durable aluminum shaft and comfortable T-handle. The High Pressure Kayak Pump can easily handle up to 15psi (1.00bar) and is suitable for either high or low-pressure inflation. Can be used for complete inflation Aquaglide HB kayaks, XP kayaks, or any other watersports equipment with Boston or High-pressure spring valve.

Specifications:

10"L x 5"W x 21" H

(25cm L x 13cm W x 53cm H)

Weight: 3 lb 5oz (1.50kg)

SUP DOUBLE ACTION PUMP

Our Double Action SUP Pump is an extremely high-pressure push pump with a high pressure gauge and an assortment of fittings. The stiff, durable metal shaft and comfortable T-handle makes quick work of inflating your iSup via the heavy duty hose that comes with the pump. This pump is best for inflating inflatable SUP's.

Specifications:

2 x 2000 cm3/29 psi max
